Tekcapital plc (AIM: TEK), an international provider of technology and intellectual property services, is pleased to report that it has successfully secured two additional new clients.

These two new client mandates are blue-chip, multi-national companies: a NASDAQ-quoted global food and beverage company and a UK-based industrial products company which operates in over 30 countries.

Tekcapital is also pleased to announce that it has recently formed a relationship with Wowio, Inc. a digital media company with a patented process for inserting ads into eBooks, a mobile eBook distribution platform and a proprietary mobile ad network. Tekcapital has been appointed to identify potential opportunities to enhance Wowio’s IP portfolio. Tekcapital is pleased to report that it has identified several technologies that may enhance Wowio’s IP position and the companies hope to consummate a transaction this fiscal year.

**Commenting on recent new client wins, Dr. Clifford M. Gross, Executive Chairman of Tekcapital plc, said:**

*“We are proud of the recent international expansion of our client base and are delighted to welcome these two multi-nationals to our growing list of clients. These wins clearly demonstrate that our offering is gaining the attention of significant blue chip global companies and our relationship with Wowio shows how we are also achieving traction with young, dynamic businesses. We look forward to continuing to develop our relationship with these new clients as we seek to expand and enhance their current IP portfolios.”*
