

**Helping clients profit from
university intellectual property**

**Turn our global
university
IP network
into your
personal R&D
department**

Every company that wants to get to the top or stay there knows that capturing and commercializing the right IP is a key to success. To meet this demand, Tekcapital has built the world's largest network of university innovators. We can rapidly find and acquire the innovations your company needs to obtain a competitive edge.

Let Tekcapital do the heavy lifting, and find the most cutting-edge, relevant technologies for your business. Our unparalleled Invention Discovery Network links you to over 4,000 of the world's leading research institutions, and captures all of their IP available for aquisition.

With Tekcapital as your tech transfer partner, you will benefit from a vibrant stream of fresh IP, screened for saliency by our panel of expert scientific advisers. As soon as a relevant technology is developed, we can inform you, analyze its potential and when appropriate execute a licensing agreement.

Disruptive innovation is our status quo

The quickening pace of innovation means that in-house research departments are pushed to their limit more than ever. Statistically, it is no longer plausible to consistently produce groundbreaking discoveries using internal efforts alone.

For organizations of every size, the need for open innovation has never been greater. Use Tekcapital's Invention Discovery Network combined with our suite of technology transfer services to gain a competitive edge. Acquiring disruptive innovation is our business, and it feels good to bring new discoveries to market.

**Tekcapital
is your guide
for informed
technology
investments**

Already acquired or developed a promising technology? Our Invention Evaluator division delivers in-depth analysis reports that inform you of the commercial potential of any new innovation. Get a quick, unbiased assessment of the technological merits, IP position and market landscape of new innovations before you invest.

Invention Evaluator reports identify potential licensing and commercialization partners, as well as regulatory hurdles. They help you turn a bright idea into a profitable investment, and save resources that might be misspent on low-potential projects.

A solid formula for success

All of our technology transfer services have one goal in mind - making your organization the most innovative in its industry. Our proprietary Invention Discovery Network is the leading university technology tracker of its magnitude in the world. Our Invention Evaluator reports offer unmatched value in assessing the market potential of new technologies.

Vortechs Group, our placement division, provides world-class technology transfer recruitment services. Our comprehensive tech transfer business provides a pipeline of qualified acquisition and in-licensing opportunities at the lowest possible cost. We are also prepared to invest with you in any technology acquisition opportunity we present. Annually we license dozens of new university technologies.

Working together we can help your organization profit from university intellectual property.

Tekcapital

“Tekcapital has a unique and beneficial business which helps companies of all sizes find and acquire university discoveries to create market value. We have found their offering to be well-received by our listed companies that have tried the service.”

-Paul Dorfman, Managing Director, NYSE Euronext

Invention Evaluator

“A lot of hard work goes into each report. It’s great value for money.”

-Binfeng Zhang, University of Sydney

“What you do is disruptively high quality at a value no one else has been able to touch.”

-Jeff Amerine, University of Arkansas

Vortechs Group

“It’s extremely important to not make mistakes with hiring. I trust the Vortechs Group team to find key employees for us. They will continue to be one of our most valued resources.”

–CEO, Caster Ventures, Inc.

“Duke University selected Vortechs Group in the fall of 2015 to conduct our search for an Executive Director of the Office of Licensing and Ventures, which concluded very successfully in early 2016. We could not have been more pleased with their performance and value to our organization.”

-Scott Gibson, Duke University School of Medicine
